EDUCATION / QUALIFICATION

2018 - Present: M.Sc. student in Food Technology, Department of Chemistry, Faculty of Engineering, University of Eduardo Mondlane. Maputo-Mozambique.

2016: Bachelor of Science, Natural Sciences, Faculty of Sciences and Techniques (FAST), University of Abomey-Calavi (UAC), Republic of Benin.

RESEARCH INTERESTS

2019: Enrichment of cassava mahewu with carrot and beetroot.

MOST RECENT SPECIFIC WORKSHOP

September, 23-24th, 2019: Scientific Journal of the Faculty of Engineering, 2019 edition. Energizing and Innovating Engineering for the Promotion of Wellness to Society's Progress". JC3939: Enrichment of cassava mahewu with carrot and beetroot.

2016-2017: Production of market gardening crops at laboratory horticultural site (GBioS); Animation of the practical work of the students in license as part of the internal internships on the horticultural site of the farm of application and experimentation of the Faculty of Agricultural Sciences (FSA);

Animation of the practical work of the edition of the training initiated by GBioS;

Establishment of the park *synsepalum ducificum* of the university of abomey-calavi (UAC).

RESEARCH AND WORK EXPERIENCE

2018- Present: Research fellow, Food Technology, Department of Chemistry, Faculty of Engineering, University of Eduardo Mondlane. Maputo-Mozambique.

2016-2017: Professor assistant, Laboratory of Genetics, Horticulture and Seed Sciences (GBioS), Faculty of Agronomic Sciences (FSA), University of Abomey-Calavi (UAC), Benin.

SCHOLARSHIPS AND AWARDS

2019: First Prize of "Scientific Journal of the Faculty of Engineering, 2019 edition. Energizing and Innovating Engineering for the Promotion of Wellness to Society's Progress". JC3939: Enrichment of cassava mahewu with carrot and beetroot.

2017: Intra Africa Academic Mobility Scheme, Scholarship for M.Sc. degree seeking mobility, MOUNAF Project (mounaf.pm@gmail.com), University of Eduardo Mondlane, Maputo-Mozambique.
